PRODUCT PRESENTATION

Parental Control Software

ABOUT US

Keeping your little ones protected online

We are a fast-expanding software development team based in Germany, providing essential features & simple user-friendly solutions allowing you to take control & monitor your chid's online activities.

We aim to build the technology that other industries want to achieve and, become a leading company among other competitors.

FOR THOSE WHO CARE ABOUT THE DIGITAL FOOD OF THEIR KIDS

TRACK STREAMING SERVICES

While watching their favorite cartoons on Netflix, or enjoying their favorite videos on YouTube, they’re exposed to unacceptable material. Well, We have got it all covered, as it helps you KNOW and CHOOSE what your child watches.

DETETCT EXPLICIT CONTENT

We use advanced technology to detect any explicit content that your child may be exposed to. Sometimes, they might not even know that the content is harmful, but since you know what’s on their devices, you can keep them safe.

LIVE LOCATION TRACKING

In the current day & age it is important to know where the child is NOW. We use GPS tracking technology to show the location of your child at any moment, allowing you to work or engage in your favorite activity at ease.

OTHER BENEFITS WITH US

Access device's battery %
